CLASSIFIED INDEX OF DISPOSITIONS OF ULP CHARGES by THE GENERAL COUNSEL of the NATIONAL LABOR RELATIONS BOARD

Contin
ft

Regional Directors Dismissal Letters
Advice Memoranda
Appeals Memoranda and Dispositions

MARCH 1980

PREFACE

This index is a subject matter index to advice and appeals memoranda and regional office dismissal letters classified on a substantial subset of the *Classification Outline for Decisions of the National Labor Relations Board and Related Court Decisions*. It contains entries for memoranda in which the General Counsel authorized issuance of complaint, or for memoranda in which the General Counsel authorized issuance of complaint, or for memoranda or letters by which the General Counsel declined to issue a complaint because of his conclusion that "there has been no violation of the National Labor Relations Act" (Section 101.5, Board's Statement of Procedure). Regional Office or Office of Appeals cases in which the General Counsel declines to issue a complaint because the evidence was "insufficient to substantiate the charge" are classified on a rudimentary subject matter classification outline prepared for that purpose and listed in a separately available *Table of Regional Office or Office of Appeals Cases in Which The General Counsel of the National Labor Relations Board Refused to Issue Complaint on ULP Charges Because of Insufficient Evidence*.

This Index contains entries for Regional Office dismissal letters and for advice and appeals memoranda issued from January 1, 1980 through March 31, 1980, including those authorizing issuance of complaint. It supplements the publication dated December 1975 which contains entries for advice and appeals memoranda from July 1, 1967 to December 31, 1975 and the publication of the same title dated December 1979, which contains entries for advice and appeals memoranda from January 1, 1976 through December 31, 1979. Advice and appeals memoranda authorizing issuance of complaint are not "final opinions" under the Supreme Court's decision in *N.L.R.B. v. Sears, Roebck and Co.*, 421 U.S. 132. However, it is the General Counsel's policy to make such memoranda publicly available, with any appropriate deletions to protect rights of privacy or confidential sources of information, after a Board decision and order has issued, after there has been full compliance with a settlement of the case, or after the case is otherwise closed under Agency procedures. To facilitate access to such memoranda after the case is closed, they are included in this Index, but memoranda authorizing complaint will not be made publicly available until the respective case is closed. There may also be rare instances where disclosure of a complaint authorizing memoranduum in a closed case would "interfere with enforcement proceedings" in an open case and, in that event, that memorandum might not be made available until the closing of the latter case.

The "Table of Regional Office and Office of Appeals Cases," referred to above, is not being published and distributed since such publication is considered unnecessary and impracticable. (See "Notice of Nonpublication," 41 F.R. 2740-2741, May 20, 1976.) The refusal to issue complaint because a charge is not supported by sufficient evidence provides little or no information concerning the action which might be taken by the General Counsel were the allegations of the charge supported by evidence, and provides little guidance to parties and the public concerning the probably disposition of other charges. In these circumstances, the public interest would not be served by expending public funds to print and distribute that table.

Notwithstanding the determination not to publish and distribute copies of the "Table of Regional Office and Office of Appeals Cases," that table will be compiled on a quarterly basis and will be available for inspection and copying at any of the Regional Offices of the National Labor Relations Board, or in the public reading room of the National Labor Relations Board, 1717 Pennsylvania Avenue, N.W., Washington, D.C. 20570. Copies of the "Table of Regional Office and Office of Appeals Cases" will be available to any member of the public upon a payment of direct duplication costs.

Copies of the advice, appeals memoranda, and Regional Office dismissal letters listed in this Index and in the "Table of Regional Office and Office of Appeals Cases" are available upon request directed to the Freedom of Information Officer, N.L.R.B., Washington, D.C. 20570, subject to payment of fees in accordance with the Agency fee schedule. Such requests should specify the case name, the date of issuance, the case number, and accession number for each document requested.

TABLE OF CONTENTS

100 NLRA AS AMENDED

133 Relationship to Other Statutes and Public Policy 1
177 Statutory Definitions 2
188 Authority and Structure of NLRB as Agency 3

200 NLRB JURISDICTION

201 Generally 4
220 Statutory Jurisdiction 5
240 Discretion in Exercise of Jurisdiction 6
260 Standards for Assertion of Jurisdiction 8
280 Enterprises Over Which the Board Did or Did Not Assert Jurisdiction 9

CLASSIFIED INDEX OF DISPOSITIONS OF ULP CHARGES

AI.

by

THE GENERAL COUNSEL of the NATIONAL LABOR RELATIONS BOARD

Regional Directors Dismissal Letters
Advice Memoranda
Appeals Memoranda and Dispositions

JUNE 1980

PREFACE

This index is a subject matter index to advice and appeals memoranda and regional office dismissal letters classified on a substantial subset of the *Classification Outline for Decisions of the National Labor Relations Board and Related Court Decisions*. It contains entries for memoranda in which the General Counsel authorized issuance of complaint, or for memoranda in which the General Counsel authorized issuance of complaint, or for memoranda or letters by which the General Counsel declined to issue a complaint because of his conclusion that "there has been no violation of the National Labor Relations Act" (Section 101.5, Board's Statement of Procedure). Regional Office or Office of Appeals cases in which the General Counsel declines to issue a complaint because the evidence was "insufficient to substantiate the charge" are classified on a rudimentary subject matter classification outline prepared for that purpose and listed in a separately available *Table of Regional Office or Office of Appeals Cases in Which The General Counsel of the National Labor Relations Board Refused to Issue Complaint on ULP Charges Because of Insufficient Evidence*.

This Index contains entries for Regional Office dismissal letters and for advice and appeals memoranda issued from January 1, 1980 through June 30, 1980. including those authorizing issuance of complaint. It supplements the publication dated December 1975 which contains entries for advice and appeals memoranda from July 1, 1967 to December 31, 1975 and the publication of the same title dated December 1979, which contains entries for advice and appeals memoranda from January 1, 1976 through December 31, 1979. Advice and appeals memoranda authorizing issuance of complaint are not "final opinions" under the Supreme Court's decision in *N.L.R.B. v. Sears, Roebck and Co.*, 421 U.S. 132. However, it is the General Counsel's policy to make such memoranda publicly available, with any appropriate deletions to protect rights of privacy or confidential sources of information, after a Board decision and order has issued, after there has been full compliance with a settlement of the case, or after the case is otherwise closed under Agency procedures. To facilitate access to such memoranda after the case is closed, they are included in this Index, but memoranda authorizing complaint will not be made publicly available until the respective case is closed. There may also be rare instances where disclosure of a complaint authorizing memoranduum in a closed case would "interfere with enforcement proceedings" in an open case and, in that event, that memorandum might not be made iavailable until the closing of the latter case.

The "Table of Regional Office and Office of Appeals Cases," referred to above, is not being published and distributed since such publication is considered unnecessary and impracticable. (See "Notice of Nonpublication," 41 F.R. 2740-2741, May 20, 1976.) The refusal to issue complaint because a charge is not supported by sufficient evidence provides little or no information concerning the action which might be taken by the General Counsel were the allegations of the charge supported by evidence, and provides little guidance to parties and the public concerning the probably disposition of other charges. In these circumstances, the public interest would not be served by expending public funds to print and distribute that table.

Notwithstanding the determination not to publish and distribute copies of the "Table of Regional Office and Office of Appeals Cases," that table will be compiled on a quarterly basis and will be available for inspection and copying at any of the Regional Offices of the National Labor Relations Board, or in the public reading room of the National Labor Relations Board, 1717 Pennsylvania Avenue, N.W., Washington, D.C. 20570. Copies of the "Table of Regional Office and Office of Appeals Cases" will be available to any member of the public upon a payment of direct duplication costs.

Copies of the advice, appeals memoranda, and Regional Office dismissal letters listed in this Index and in the "Table of Regional Office and Office of Appeals Cases" are available upon request directed to the Freedom of Information Officer, N.L.R.B., Washington, D.C. 20570, subject to payment of fees in accordance with the Agency fee schedule. Such requests should specify the case name, the date of issuance, the case number, and accession number for each document requested.

CLASSIFIED INDEX OF DISPOSITIONS OF ULP CHARGES

Caution

by

THE GENERAL COUNSEL of the NATIONAL LABOR RELATIONS BOARD

Regional Directors Dismissal Letters
Advice Memoranda
Appeals Memoranda and Dispositions

SEPTEMBER 1980

PREFACE

This index is a subject matter index to advice and appeals memoranda and regional office dismissal letters classified on a substantial subset of the *Classification Outline for Decisions of the National Labor Relations Board and Related Court Decisions.* It contains entries for memoranda in which the General Counsel authorized issuance of complaint, or for memoranda in which the General Counsel authorized issuance of complaint, or for memoranda or letters by which the General Counsel declined to issue a complaint because of his conclusion that "there has been no violation of the National Labor Relations Act" (Section 101.5, Board's Statement of Procedure). Regional Office or Office of Appeals cases in which the General Counsel declines to issue a complaint because the evidence was "insufficient to substantiate the charge" are classified on a rudimentary subject matter classification outline prepared for that purpose and listed in a separately available *Table of Regional Office or Office of Appeals Cases in Which The General Counsel of the National Labor Relations Board Refused to Issue Complaint on ULP Charges Because of Insufficient Evidence.*

This Index contains entries for Regional Office dismissal letters and for advice and appeals memoranda issued from January 1, 1980 through September 30, 1980, including those authorizing issuance of complaint. It supplements the publication dated December 1975 which contains entries for advice and appeals memoranda from July 1, 1967 to December 31, 1975 and the publication of the same title dated December 1979, which contains entries for advice and appeals memoranda from January 1, 1976 through December 31, 1979. Advice and appeals memoranda authorizing issuance of complaint are not "final opinions" under the Supreme Court's decision in N.L.R.B. *v. Sears, Roebuck and Co.,* 421 U.S. 132. However, it is the General Counsel's policy to make such memoranda publicly available, with any appropriate deletions to protect rights of privacy or confidential sources of information, after a Board decision and order has issued, after there has been full compliance with a settlement of the case, or after the case is otherwise closed under Agency procedures. To facilitate access to such memoranda after the case is closed, they are included in this Index, but memoranda authorizing complaint will not be made publicly available until the respective case is closed. There may also be rare instances where disclosure of a complaint authorizing memoranduum in a closed case would "interfere with enforcement proceedings" in an open case and, in that event, that memorandum might not be made available until the closing of the latter case.

The "Table of Regional Office and Office of Appeals Cases," referred to above, is not being published and distributed since such publication is considered unnecessary and impracticable. (See "Notice of Nonpublication," 41 F.R. 2740-2741, May 20, 1976.) The refusal to issue complaint because a charge is not supported by sufficient evidence provides little or no information concerning the action which might be taken by the General Counsel were the allegations of the charge supported by evidence, and provides little guidance to parties and the public concerning the probably disposition of other charges. In these circumstances, the public interest would not be served by expending public funds to print and distribute that table.

Notwithstanding the determination not to publish and distribute copies of the "Table of Regional Office and Office of Appeals Cases," that table will be compiled on a quarterly basis and will be available for inspection and copying at any of the Regional Offices of the National Labor Relations Board, or in the public reading room of the National Labor Relations Board, 1717 Pennsylvania Avenue, N.W., Washington, D.C. 20570. Copies of the "Table of Regional Office and Office of Appeals Cases" will be available to any member of the public upon a payment of direct duplication costs.

Copies of the advice, appeals memoranda, and Regional Office dismissal letters listed in this Index and in the "Table of Regional Office and Office of Appeals Cases" are available upon request directed to the Freedom of Information Officer, N.L.R.B., Washington, D.C. 20570, subject to payment of fees in accordance with the Agency fee schedule. Such requests should specify the case name, the date of issuance, the case number, and accession number for each document requested.

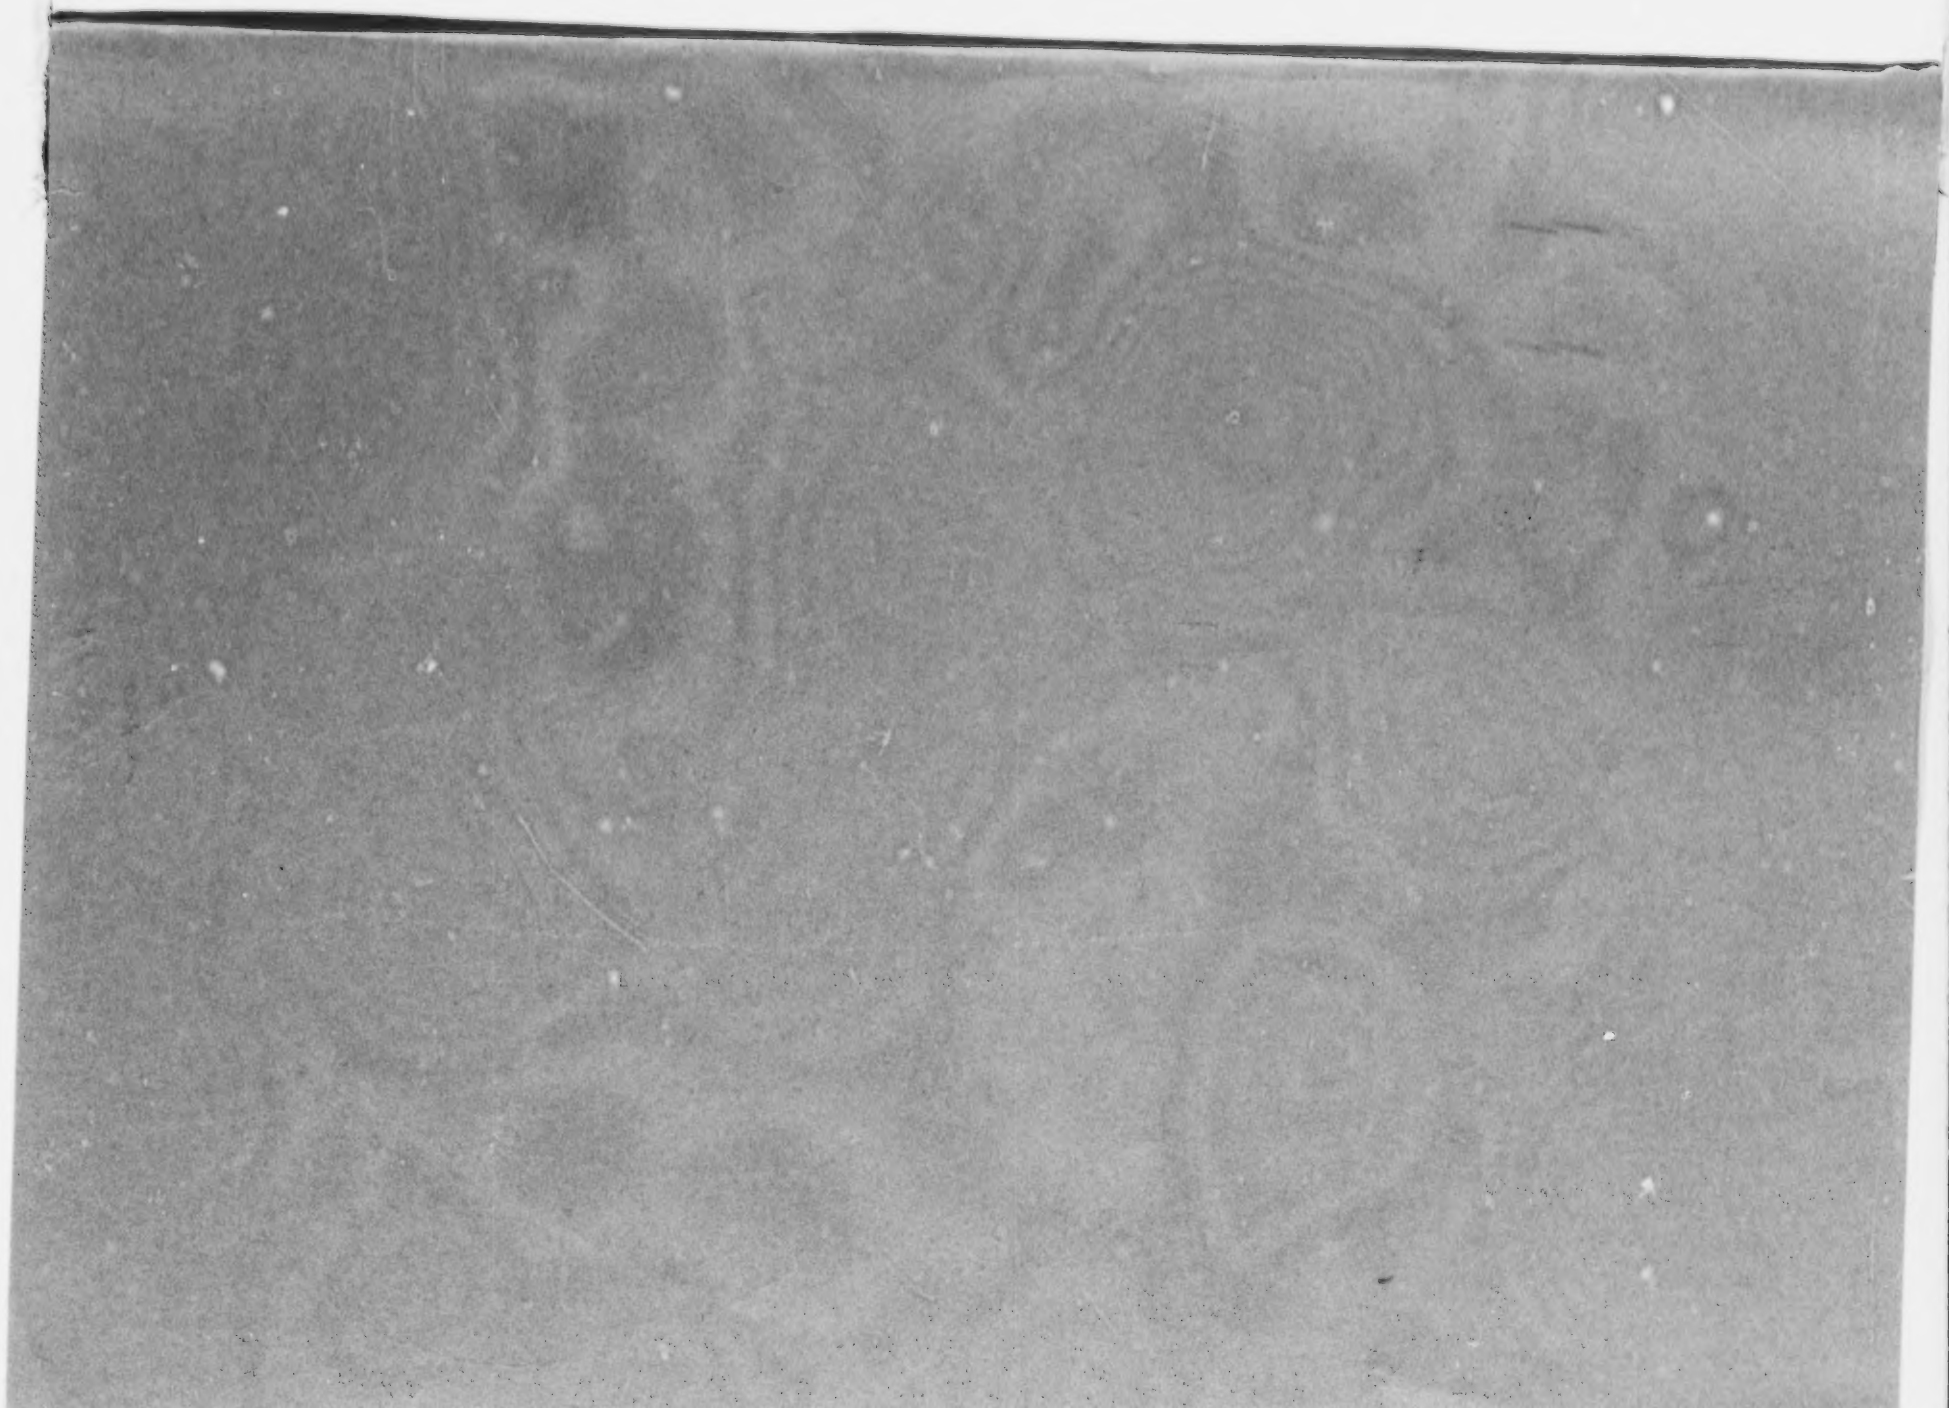
CLASSIFIED INDEX OF DISPOSITIONS OF ULP CHARGES

by

THE GENERAL COUNSEL
of the
NATIONAL LABOR RELATIONS BOARD

Regional Directors Dismissal Letters
Advice Memoranda
Appeals Memoranda and Dispositions

DECEMBER 1980



PREFACE

This index is a subject matter index to advice and appeals memoranda and regional office dismissal letters classified on a substantial subset of the *Classification Outline for Decisions of the National Labor Relations Board and Related Court Decisions.* It contains entries for memoranda in which the General Counsel authorized issuance of complaint, or for memoranda or letters by which the General Counsel declined to issue a complaint because of his conclusion that "there has been no violation of the National Labor Relations Act" (Section 101.5, Board's Statement of Procedure). Regional Office or Office of Appeals cases in which the General Counsel declines to issue a complaint because the evidence was "insufficient to substantiate the charge" are classified on a rudimentary subject matter classification outline prepared for that purpose and listed in a separately available *Table of Regional Office or Office of Appeals Cases in Which The General Counsel of the National Labor Relations Board Refused to Issue Complaint on ULP Charges Because of Insufficient Evidence.*

This Index contains entries for Regional Office dismissal letters and for advice and appeals memoranda issued from January 1, 1976 through December 31, 1980, including those authorizing issuance of complaint. It supplements the publication dated December 1975 which contains entries for advice and appeals memoranda from July 1, 1967 to December 31, 1975. All other publications of this title may be discarded. Advice and appeals memoranda authorizing issuance of complaint are not "final opinions" under the Supreme Court's decision in *N.L.R.B. v. Sears, Roebck and Co.*, 421 U.S. 132. However, it is the General Counsel's policy to make such memoranda publicly available, with any appropriate deletions to protect rights of privacy or confidential sources of information, after a Board decision and order has issued, after there has been full compliance with a settlement of the case, or after the case is otherwise closed under Agency procedures. To facilitate access to such memoranda after the case is closed, they are included in this Index, but memoranda authorizing complaint will not be made publicly available until the respective case is closed.

There may also be rare instances where disclosure of a complaint authorizing memoranduum in a closed case would "interfere with enforcement proceedings" in an open case and, in that event, that memorandum might not be made available until the closing of the latter case.

The "Table of Regional Office and Office of Appeals Cases," referred to above, is not being published and distributed since such publication is considered unnecessary and impracticable. (See "Notice of Nonpublication," 41 F.R. 2740-2741, May 20, 1976.) The refusal to issue complaint because a charge is not supported by sufficient evidence provides little or no information concerning the action which might be taken by the General Counsel were the allegations of the charge supported by evidence, and provides little guidance to parties and the public concerning the probably disposition of other charges. In these circumstances, the public interest would not be served by expending public funds to print and distribute that table.

Notwithstanding the determination not to publish and distribute copies of the "Table of Regional Office and Office of Appeals Cases," that table will be compiled on a quarterly basis and will be available for inspection and copying at any of the Regional Offices of the National Labor Relations Board, or in the public reading room of the National Labor Relations Board, 1717 Pennsylvania Avenue, N.W., Washington, D.C. 20570. Copies of the "Table of Regional Office and Office of Appeals Cases" will be available to any member of the public upon a payment of direct duplication costs.

Copies of the advice, appeals memoranda, and Regional Office dismissal letters listed in this Index and in the "Table of Regional Office and Office of Appeals Cases" are available upon request directed to the Freedom of Information Officer, N.L.R.B., Washington, D.C. 20570, subject to payment of fees in accordance with the Agency fee schedule. Such requests should specify the case name, the date of issuance, the case number, and accession number for each document requested.

TABLE OF CONTENTS

100 NLRA AS AMENDED

133 Relationship to Other Statutes and Public Policy 1
144 Construction 3
177 Statutory Definitions 4
188 Authority and Structure of NLRB as Agency 18

200 NLRB JURISDICTION

Generally 22
220 Statutory Jurisdiction 23
240 Discretion in Exercise of Jurisdiction 25
260 Standards for Assertion of Jurisdiction 48
280 Enterprises Over Which the Board Did or Did Not Assert Jurisdiction 54
